# Cloud Computing - eDiscovery

### Webinar

As cloud providers grow and more information is being stored in “the cloud,” it is important to consider the risks and benefits when confronted with litigation. This webinar presentation will examine litigation and eDiscovery considerations of information stored in private, public and hybrid clouds along with considerations for data privacy. The presentation will also provide practical suggestions for overcoming ways that cloud computing may complicate discovery.

#### CLE

The live presentation of this program was approved for 1.0 hour general CLE credit in California and Illinois, and 1.2 general CLE credit in Missouri. CLE credit is no longer available for this recording.
