### EDUCATION

I am skilled in complex document productions, drafting pleadings, discovery, case analyses, and motions, as well as managing cases in civil and federal courts and arbitrations.

#### overview

Laura Juarez is a key member of the firm's business litigation and higher education teams, providing comprehensive support in areas such as legal research, document management, discovery, and case organization.

She has more than 20 years of experience in all phases of litigation, and her attention to detail is essential in ensuring the efficient progression of the team's cases through all stages of litigation.

#### in my free time

I enjoy spending time with my family and friends and especially enjoy planning theme parties for the people in my life. My husband and I own a boxing gym in Birmingham, Alabama, where my husband, a retired professional boxer, does private fitness boxing lessons and boot camps as well as trains amateur fighters. He and I created a boxing training program specifically for people battling Parkinson's disease. This program, PD Fight Club, now has hundreds of participants and has been a life-changing experience for many.
