

TRADEMARK & BRAND PROTECTION

Your brand is your identity, and we help protect it. Our team provides practical trademark solutions, from in-depth searches to licensing and dispute resolution, in the U.S. and internationally. Whether selecting a new trademark or managing infringement risks, we're dedicated to safeguarding and growing your brand.

TRADEMARK CLEARANCE & PROSECUTION

We assist with trademark searches and applications, and office actions issued by the Trademark Office, helping clients protect their trademarks in the U.S. and globally.

TRADEMARK PORTFOLIO MANAGEMENT AND LICENSING

We manage trademark portfolios for clients of all sizes, from global portfolios (through a network of foreign associates in other countries) to smaller, yet equally vital portfolios. We also negotiate and draft licenses and assignments to maximize trademark value.

TTAB PROCEEDINGS

We represent clients before the Trademark Trial and Appeal Board (TTAB) in appeals, oppositions, cancellations, and expungements. We regularly handle TTAB procedures to protect and enforce trademark rights.

TRADEMARK LITIGATION

We have extensive experience litigating trademark disputes nationwide, including infringement, dilution, and unfair competition claims.

UNIFORM DOMAIN-NAME DISPUTE-RESOLUTION POLICY (UDRP) PROCEEDINGS

We have successfully recovered numerous domain names for clients, ensuring their trademarks are protected in the digital space.

BORDER PROTECTION

We assist clients in recording trademarks with U.S. Customs and Border Protection (USCBP) to block infringing imports. Once registered, USCBP monitors and seizes counterfeit goods at U.S. borders, offering an extra layer of brand protection.
